## Vibrant, innovative design solutions

**S**tudio Line Craft's strength lies in its flexible approach to offer innovative designs and ensure support, from concept to completion of a project, as per their clients' expectations. Vikram Khatri, their principal interior designer, with an experience of 18 years in the field of conceptualizing & designing, has been playing a key role in ensuring client satisfaction, both in terms of design and delivery of the

projects. His team of professionals, under his guidance, have made SLC an emerging leader in hospitality design in India.

From understanding the project, recording the client's (brand's) requirements, preparing a concept design, presenting visualization of approved concept for approval to preparation of GFC drawings and dedicated site co-ordination, the design studio handles everything. Some of the projects desi-

gned by them include Hilton Garden in Lucknow, Hotel Medin in Varanasi, Radisson Green in Mumbai and Jaipur, Lemon Tree in Amritsar, Royal Trip in Kufri, Country Inn in Goa, Ananta Spa Resort in Pushkar and Udaipur, Lords Inn in Agra and Lords Plaza in Goa and Nepal.
